The fabric of caring is stitched throughout our community.
When individual pieces are carefully stitched together, the result is nothing less than a work of art. Each piece contributes to the overall success of the whole. So it is with St. Luke’s Foundation. Your donations form the fabric of who we are and what we do. By threading together your gifts, we are able to provide financial support to advance patient care at St. Luke’s, to provide education in our community, and to support research for a healthy region. And that is a thing of beauty.

Every stitch makes an impression

When individual pieces are carefully stitched together, the result is nothing less than a work of art. Each piece contributes to the overall success of the whole. So it is with St. Luke’s Foundation. Your donations form the fabric of who we are and what we do. By threading together your gifts, we are able to provide financial support to advance patient care at St. Luke’s, to provide education in our community, and to support research for a healthy region. And that is a thing of beauty.

On the cover

Handmade quilts, crafted by volunteers who are part of the Northeastern Minnesota Chapter of Project Linus, are given to pediatric patients in St. Luke’s Emergency Department and Pediatric Unit. As Charles Schulz’s Linus character from the PEANUTS® comic strip was comforted by his blanket, Project Linus strives to do the same and more for children who are seriously ill, traumatized, or otherwise in need.

Caring for Kids at St. Luke’s

“Zero to Fantastic” was the theme for the first Medical Milestones education luncheon of the year. Dr. Gretchen Karstens, St. Luke’s Pediatric Associates, offered tips on family bonding and creating healthy environments for children. The presentation was made possible through the Dr. Samuel N. and Leone S. Litman Lectureship in Pediatrics.

Project Pink

The pink Como Oil truck is more than just eye-catching. It’s a valuable fundraiser for St. Luke’s Breast Center. Como Oil & Propane donates a penny for every gallon of propane delivered by its pink truck.

UMD Women’s Athletics

As part of a partnership between St. Luke’s Foundation and UMD Women’s Athletics, the UMD softball and women’s basketball teams each designated a game to raise awareness of breast cancer. Additionally, through the sale of special game-day shirts and a silent auction, money is raised for the St. Luke’s Foundation Cancer Care Fund and St. Luke’s Breast Center.

Cancer Shootout wraps in a big way

Ten years of a highly successful hockey tournament fundraiser ended with a wrap-up party in March. The benefits of this group’s commitment will continue for years to come, including an announcement later in the year of a significant research grant that was attained thanks to total funding from the Cancer Shootout.

A look at 2011

So many gifts. So many grants. St. Luke’s Foundation is able to weave them together to fulfill our mission of advancing patient care, health education and clinical research.

Bridge to Health

Partnering with local organizations, St. Luke’s Foundation helped sponsor the Bridge to Health Survey, published in May 2011, which looked at mental illness, including suicide and mental health, health-related behaviors and access to care.

Sim Baby

It’s very different to diagnose and treat a baby compared to an adult. To provide ongoing training opportunities for St. Luke’s staff, St. Luke’s Foundation purchased a Sim Baby, a realistic patient simulator that can be programmed to display a variety of symptoms and responses.

Eva Ericson Peterson Memorial Nursing Scholarship Fund

Eva Ericson Peterson was a 1947 graduate of St. Luke’s Hospital School of Nursing and spent her career as a nurse. In 2011, her family established a scholarship fund in her memory, which awards $500 to a St. Luke’s employee pursuing an RN or higher degree.

Motion for Life

Keeping active and enjoying life can be more difficult if one is held back by body aches and pains. For the second program in the Medical Milestones series, Dr. Anne Sullivan, St. Luke’s Orthopaedics & Sports Medicine, discussed new orthopedic technology and treatments, plus tips for staying in shape.

EMS Recognition Dinner

Each year, St. Luke’s Foundation helps sponsor a dinner to recognize and honor the professional and volunteer EMS workers who serve throughout the Arrowhead region.

Touched by Breast Cancer Golf Classic

Bridge to Health Survey

To promote continuing education in St. Luke’s Respiratory Services Department, the Douglas H. and Judith H. Lewis Memorial Fund of the Duluth Superior Area Community Foundation helps pay for employees to attend conferences and special training.

Sand Lake Shuffle

Featuring golf, croquet, tennis and bridge, the Benefit Tournament is our oldest fundraising event. Started in 1983, it takes place each July at Northland Country Club and raises money for St. Luke’s Foundation’s unrestricted grants program.

Red Hat Red Hot Mamas

The Superior Chapter of the Red Hat Society, otherwise known as the Red Hat Red Hot Mamas Chapter #39569, sponsors a golf outing each August. The nine-hole women’s scramble, organized by “Queen Mom” Ruth Dalbec and her co-chairs, raises money to help local cancer patients with wigs and other personal care items.

Sleep Lab Training

To promote continuing education in St. Luke’s Respiratory Services Department, the Douglas H. and Judith H. Lewis Memorial Fund of the Duluth Superior Area Community Foundation helps pay for employees to attend conferences and special training.

House of Hearts

Celebrating its tenth anniversary in 2011, the House of Hearts Celebrity Bonspiel tournament is a fun event that raises funds to improve care for cancer and cardiac patients at St. Luke’s

I Give Employee Campaign

We kicked off the annual employee giving campaign with an ambitious goal – $180,000. When the tallying was done, St. Luke’s generous workers proved their dedication once again, surpassing the goal by raising $183,000. Employees at Laurentian Medical Clinic sport their matching campaign t-shirts.

Benefit Tournament

Along a candle-lit path at Voyageurs Sand Lake Resort in Brit, cancer survivors and their families who have been touched by cancer walk in teams all night long. A spaghetti feed and entertainment are also part of the event, which supports our Whiteside Institute for Clinical Research cancer research.

Eva Ericson Peterson Memorial Nursing Scholarship Fund

Eva Ericson Peterson was a 1947 graduate of St. Luke’s Hospital School of Nursing and spent her career as a nurse. In 2011, her family established a scholarship fund in her memory, which awards $500 to a St. Luke’s employee pursuing an RN or higher degree.
A celebration of health care excellence, the Circle of Light is our signature event, raising funds through dinner, auctions and sponsorships. In 2011, we dedicated those funds to technology initiatives. Additionally, we recognized outstanding supporters -
Physician: Dr. Gail Baldwin, Medical Director, Lake Superior Community Health Center
Employee: Bruce Jessen, Manager, Northland Pharmacy
Friend: Minnesota Power

Another technology initiative funded by the Circle of Light is bedside computer tablets to make patients' stays more comfortable. Rooms in St. Luke’s Birthing Center are the first to be equipped with this versatile computer system.

Rehab Apartment
Preparing patients and their caregivers for an easier transition to life at home after surgery or a medical incident is the purpose of the new transitional apartment on 8 West; St. Luke’s Inpatient Rehab Unit, which culminated in grand opening in September 2011. Living in the small apartment can boost a patient’s confidence in his or her ability to function after leaving the hospital and can be an alternative to a nursing home.

Bedside Computer Tablets
One of the technology initiatives funded by the Circle of Light is bedside computer tablets to make patients’ stays more comfortable. Rooms in St. Luke’s Birthing Center are the first to be equipped with this remarkable computer system.

ScriptPro
Another technology initiative funded with proceeds from the Circle of Light is ScriptPro software system for Northland Pharmacy. ScriptPro is a workflow system that improves patient safety and staff efficiency while drastically reducing paper records.

Bowling to Beat Breast Cancer
Breast cancer survivor Barb Hoag organizes Bowling to Beat Breast Cancer each year. Proceeds from the tournament are used to purchase “Chicken Soup for the Breast Cancer Survivor’s Soul” books for St. Luke’s Breast Center patients.

Pink Tie Event
The Pink Tie party features cocktails and hors d’oeuvres. It’s held at Black Water Lounge as part of Breast Cancer Awareness Month and is one of the Charter Media events that raises money for St. Luke’s Breast Center.

Management of Aggressive Behavior (MOAB)
It’s a sad reality that, in the business of caring for patients, staff members sometimes have to take defensive measures to protect themselves. St. Luke’s Foundation purchased an instructor suit and two student suits for employees to use in practice defense techniques. The MOAB program also trains staff to recognize signs of aggression in hopes of preventing physical confrontations.

$1 million grant for breast cancer research
Exciting news in November was announced – Drs. Teresa Rose-Hellekant and Jon Holy, researchers at University of Minnesota Medical School Duluth (UMD), were awarded a $1 million grant from the National Institutes of Health to study how Tamoxifin, an anti-estrogen drug, prevents breast cancer from developing. A $13,000 grant from Cancer Shootout funds, given to the Whiteside Institute for Clinical Research, started the project.

Small Things Fund
Conceived by Dr. Krisa Christian and facilitated by St. Luke’s Foundation, the Small Things Fund was announced. It is a fund for patients with small needs, in keeping with the St. Luke’s tradition of “The Painter Above All Else,” and requested by the St. Luke’s medical community. The fund will award grants to assist patients with one-time, emergency needs.

da Vinci Surgical System
Surgical at St. Luke’s is bringing the da Vinci robot as a minimally invasive alternative to open surgery and laparoscopy in the spring of 2011. At the third Medical Milestones luncheon of the year, Dr. Steven C. Kaban, Northland OB-GYN, and Dr. Thomas O’Connor, St. Luke’s Urology Associates, described the patient benefits of robotic-assisted surgery.

In the event of a large scale disaster with mass casualties, what ethical issues do physicians and other health care professionals face in the course of treating patients? That was the topic of a special conference funded in part by the Dr. Kay R. Lundberg Lecture Fund, which was established by her family in 1982 to honor the former St. Luke’s anesthesiologist.

Bedside Computer Tablets
One of the technology initiatives funded by the Circle of Light is bedside computer tablets to make patients’ stays more comfortable. Rooms in St. Luke’s Birthing Center are the first to be equipped with this remarkable computer system.

ScriptPro
Another technology initiative funded with proceeds from the Circle of Light is ScriptPro software system for Northland Pharmacy. ScriptPro is a workflow system that improves patient safety and staff efficiency while drastically reducing paper records.

Mission

St. Luke’s Foundation provides financial support to St. Luke’s and the region it serves to advance patient care, health education and clinical research.
